Laura Flitney, Assistant Transport Planner

"Being part of the company's graduate training programme has been a positive experience both in terms of the skills learned and the team which I have been working alongside. It's rewarding to be able to look back and see the progression from learning the basics to being able to carry out project work independently and begin to see schemes get permission. Within the first few days of starting I was exposed to project work and from here on was encouraged to gradually develop my skills through further exposure to a wide range of projects throughout the course of the programme."

Shaan Novitzki, Assistant Transport Planner

"Upon starting my career at Paul Basham Associates I knew little about Transport Planning, however working alongside the team and my mentor has allowed me to develop a new skill every day and I've had the opportunity to learn far more than I could have anticipated. Working at Paul Basham Associates has allowed me to experience many parts of the business from a range of projects and sectors to marketing and social events. The best part about my time at Paul Basham Associates so far is being part of a friendly, well experienced team where everyone is happy to lend a hand."
